

# AQUAINTECH INC.

## Technical Specification AquaPro B

**Product Name:** AquaPro B

**Product Type:**

A mixture of two naturally occurring *Bacillus* species (Generally Recognized as Safe-GRAS by the US FDA and US EPA) for the degradation of organic matter in sludge.

**Product Composition:**

AquaPro B is a blend of two species, *Bacillus subtilis* and *B. licheniformis* at no less than 4 billion spores per gram (as determined by MPN). The spores are blended with nutrients that serve as the initial source of nutrition as the spores germinate.

**Product Usage:**

Used to degrade organic matter in bodies of water. Should be activated before use.

For specific lot information, consult the certificate of analysis that accompanies each individual shipment.
